

D.I.S.L. AUTOMATIC – MATTER OF TIME LYRICS

d.i.s.l automatic:(intro)

yea, disl automatic,sinthesis

lets get big on'em

sinthesis:(hook)

i don't understand why most people feel change

in all we know for sure is that nothing stays the same way

after the rain sun is shy its simply just a matter of time

d.i.s.l automatic:(verse-1)

i sit back and reflect upon our ages

we've come a long way and its a blessing that we made it

the human race is been through many different phases

and what i learned from them is everything changes

sometimes for worst and sometimes for better

after the rain comes sun shiny weather

the fact still remains that nothing is forever

if we wanna make the change we must try together

i truly feel that our path is divine

we're here to cultivate our souls into m-ssive our

even though it seems a tall ladder to climb

we gonna make it to the top its just a matter of time

cu'z change is inevitable,thats not a mystery

lets make this a memorable time in our history

so when the future generations reflect on us

they have admiration,love & respect for us

hook

d.i.s.l automatic:(verse-2)

we've seen so many changes in culture and society

so why do we think that the way we live now will be

the way we live forever? , that's downright arrogant

and ignorant, we're living in a social experiment

learning from mistakes is how we evolve

using trial and error 'til our problems are solved

no you can't stop change so don't bother at all

'cause everything in life has a rise and a fall

throughout history many beliefs have risen

so many different gods worshiped by different religions

and now we label them all as mythology

we'll probably have the same thing happen to our beliefs

civilizations, kingdoms and empires

thought they'd be around forever but they all expired
it's time we make a change for the better not worse
'cause we got what it takes to make a heaven on earth!
